# Step 20. 簡繁轉換

The screenshot displays the Google Translate web interface. On the left, a dropdown menu is open, with the '自動翻譯...' (Automatic Translation) option highlighted by a red box and a red arrow pointing to the main interface. The main interface is split into two panels: '簡體中文' (Simplified Chinese) on the left and '繁體中文' (Traditional Chinese) on the right. The '自動翻譯' (Automatic Translation) button in the right panel is also highlighted with a red box. Below the language selection, there are two tables side-by-side, each with columns for '編號' (Number), '起始時間' (Start Time), '持續時間' (Duration), and '文字' (Text). The first table shows the original text in Simplified Chinese, and the second table shows the translated text in Traditional Chinese.
